WHY ARE WE HAVING THIS IAU ODM ?

What is the IAU ODM for?

Today and tomorrow you will hear many important reports and presentations about how to prepare and conduct a successful Championship.

We hope you will go home with many new ideas on how to improve your Championships. You will hear presentations on very important items such as the Internet, which is essential for most of our work with TV, Live Results, Media.

Communication with all people participating or wanting to get details about your Championship. More and more we have to go to paperless championships and you will hear also some details about this objective.

IAU ODM OPENING AND WELCOME

Also very important will be the ideas on the preparation of attractive Fields of Play – for TV, media and spectators.

Every World, Continental or World Cup Championship is **our business card** that is seen on TV and Internet by all **(also by possible future sponsors)**.

We wish to emphasize these two major points and kindly ask all organizers to make every effort to secure a good internet connection as well as to secure a nice, clean, attractive venue.
