## HOW TO USE THE PRESENTATION

- **Concern:** Some delegates do not put ODM instruction into practice.
- **Problem:** ODM present more information than one person can remember.
- **Action:** To take better advantage of ODM recommendations:
  1. Take careful notes.
  2. Know how to find ODM presentations for future review.
  3. For each presentation that applies to your Championship, identify an OC staff member who is responsible for that function—provide presentation links to that staff member.
  4. Make a commitment to excellence - ODM presentations are “best practice” advice or guidelines.
